

TF202306-6

1. Complete accessories, easy to install:

Our 12v fused relay includes everything needed for installation: a 6 slot 5 pin 40/30A SPDT relay and 10 ATO/ATC blade fuses (10A x 2, 20A x 4, 25A x 2, 30A x 2), and a rugged waterproof relay box.

2. Strong waterproof performance:

Made of reliable and durable materials, our silicone sealed relays and fuses are IP65 waterproof, making them perfectly suitable for installation in wet and water-prone areas. This relay box is sealed and protected for any contingencies. Make your travel safer.

3. Excellent quality:

The fuse and relay boxes are made of high-quality flame-retardant shells, silicone gaskets and seals make them IP65 waterproof, with an easy-to-operate push-lock system, the overall structure is solid and reliable, and has strong tamper-proof performance. Wear-resistant, waterproof, durable to use.
